STUDENTS TO LEARN ABOUT MACOMB COUNTY GOVERNMENT

MOUNT CLEMENS, Mich. – Macomb County government offices will host local high school students on Wednesday, May 4, for Macomb County Close Up Student Government Day. This student government day activity will provide students with an opportunity to view county government operations from behind the scenes.

Co-sponsored by the Macomb County Board of Commissioners, the Macomb Intermediate School District and the Close Up Foundation, this full-day program invites juniors and seniors from all of Macomb County's public and private high school government classes to take a close look at the operations of their Macomb County government.

Highlights of the day include a tour of the Macomb County Jail, a session with each student's County Commissioner, a job shadowing experience with a county official and a mock County Board meeting with selected students serving as commissioners. The day will be completed with a late afternoon reception.

This national award-winning program was developed to encourage young adults to take an interest in local government and identify unexplored career options. In addition, students learn the role of local county government in their daily lives.
